NOTE:

The following notice was received on Monday, May 21, 1979 at 11:45 P.M. immediately following the adjournment of the Town Meeting Session of that date:

Mrs. Sandland:

I hereby declare my intentions to ask for reconsideration of Article 27 prior to the adjournment of the Annual Town Meeting, Pursuant to Town of Plainville By-Laws, Chapter I, Section 2.6.

Edward S. Serwinski
April 21, 1979

I feel that the article, in its voted form, inadvertently left out some words which altered the original intent of the Planning Board's recommendations.

COMMITTEE REPORT — MAY 21, 1979

Police/Fire Combined Dispatching

Summary of Articles 8 and 9

Since the committee was formulated in September, 1978, a variety of meetings have been held with existing police/fire dispatching facilities in the area. After examining these facilities and evaluating their pros and cons, the committee has determined that a professional study is needed by an architect, recommending the most efficient and feasible direction in which to renovate, and/or add to, the present police/fire facility. The committee is asking the town to raise by revenue sharing the sum of \$750.00, as stated in Article 8, for this purpose.

It is the feeling of the committee that combining the present police/fire dispatching system into one system will be beneficial to the town and will enhance the proficiency of both departments, establishing a cost savings in operation after initial installation.

The committee is recommending the tabling of Article 9 calling for the sum of \$40,000.00 to cover the cost of salaries for four civilian dispatchers to man the combined center. It is the opinion of the committee that the first step is to formulate efficient plans to construct such a facility; and secondly, to organize the manning and equipping of the facility. The committee is presently formulating grants to carry out these steps in operating a combined dispatching center, and in realizing a cost savings to the town.

Upon completion of these plans the committee intends to bring its recommendations to the town through a special town meeting.

POLICE/FIRE COMBINED DISPATCHING
COMMITTEE

Selectman: Robert Root
Chief: Walter Sandland
Chief: Tom Skinner

The third session of the Annual Town Meeting was held on Tuesday, May 29, 1979 in the auditorium of the Beatrice H. Wood School on South Street in Plainville.

ARTICLE 25: Report by Dag Hultgreen — IN RE: Report of Planning Board Pursuant to Chapter 40A, Section 5. The Planning Board voted unanimously to recommend the adoption of this Article. As reasons therefore, adoption of the article would be an up-date to the zoning by-law bringing the by-law into conformity with Chapter 808 of the Acts of 1975.

Following report, Mr. Hultgreen made the motion, seconded by Edward Serwinski, that the Town accept Article 25 as printed.

The Planning Board by a vote of 4 to 1 recommends adoption of the rest of Article 26 as written. The Board feels that some flexibility should be allowed within the framework of our by-laws. The article as it currently reads would not allow use variances.

Said Insurance shall indemnify the Town against any and all claims, liabilities, or actions for damages incurred in, or in any way connected with, the performance of the work by a Drain Layer and for, or by reason of, any acts of omission of said Drain Layer in the performance of his work.

Section 18. Licensee not to allow use of name by another. No person duly licensed to construct Building and other private Sewers and make connections with Public Sewers shall allow his name to be used by any other person, either for the purpose of obtaining permits or doing any work under his license.

All Building Sewer installation work shall be performed by Drain Layers licensed by the Board.

Applicants for permits must be Drain Layers licensed in Plainville.

Section 19. Forfeiture of license. Any Drain Layer violating any provision of this by-law shall, in addition to the general penalties provided for the violation of this by-law in Article IX, forfeit his license.

Section 20. Inspection powers of the Board and its agents. The Board, the Superintendent, and their duly authorized Agents bearing proper credentials and

identification shall be permitted to enter, at reasonable times, all properties connected with the Public Sewers for the purpose of inspection, observation, measurement, sampling, and testing, all in accordance with the provisions of this by-law. They may inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, plating, or other industrial activity that contribute waters or wastes to the Public Sewers, but shall not order or demand information concerning any patented process or trade secret beyond that necessary to determine the kind, source, and amount of Wastewater discharge from the industrial or commercial plant to the Public Sewers.

ARTICLE IV *Use of Public Sewers*

Section 1. Disposal of unpolluted waters prohibited. No Person shall discharge or cause to be discharged any stormwater, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water or unpolluted process waters to any Sanitary Sewer.

Section 2. Discharge method specified. Stormwater and all other unpolluted drainage shall be discharged to such Public Sewers as are specifically designated as Storm Sewers, or to a Natural Outlet approved by the Board. Industrial cooling water or unpolluted process waters may be discharged, on approval of the Board, to a Storm Sewer or Natural Outlet.

Section 3. Prohibited Wastes. No Person shall discharge or cause to be discharged any of the following described waters or wastes to any Public Sewers:

- a) Any gasoline, benzene, naptha, fuel oil, or other flammable or explosive liquid, solid, or gas.
- b) Any waters or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the Sewage Treatment Plant.
- c. Any waters or wastes having a pH lower than 5.5, or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the Sewage Works.
- d. Solid or viscous substances in quantities or of such size capable of causing obstruction of the flow in Public Sewers, or other interference with the proper operation of the Sewage Works such as, but not limited to, ash, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground Garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, abrasive materials, etc. either whole or properly shredded by Garbage grinders.

Section 4. Controlled Wastes. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the Public Sewers, Sewage treatment process, or equipment; have an adverse effect on the receiving stream; or can otherwise endanger life, limb, public property, or

constitute a nuisance. In forming his opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to the flow and velocities in the Public Sewers, materials of construction of the Public Sewers, nature of the Sewage treatment process, capacity of the Sewage Treatment Plant, degree of treatability of wastes in the Sewage Treatment Plant, and other pertinent factors. The controlled substances are:

- a) Any liquid or vapor having a temperature higher than one hundred fifty (150°F) (65°C).
- b) Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) mg/l or containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150°F) (0 and 65°C).
- c) Any Garbage that has not been Properly Shredded. The installation and operation of any Garbage grinder equipped with a motor of three-fourths (³/₄) horsepower (0.76hp metric) or greater shall be subject to the prior review and approval of the Superintendent and the Board.
- d) Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solutions whether neutralized or not.
- e) Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite Sewage at the Sewage Treatment Plant exceeds the limits established by the Superintendent for such materials.
- f) Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite Sewage to meet the requirements of the State, Federal, or other public agencies or jurisdiction for such discharge to the receiving waters.
- g) Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
- h) Any waters or wastes having a pH in excess of 9.5.

Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the Public Sewer to the point at which the Building Sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the Sewage Works and to determine the existence of hazards to life, limb, and property. The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.

Section 10. Monitoring of wastes. All industries discharging into a Public Sewer shall perform such monitoring of their discharges as the Superintendent, Board, and/or other duly authorized employees of the Town or North Attleborough may reasonably require, including installation, use and maintenance monitoring equipment, keeping records and reporting the results of such monitoring to the Superintendent and/or Board. Such records shall be made available upon request by the Superintendent and/or the board to other agencies having jurisdiction over discharges to the receiving waters.

Section 11. Notice of accidental discharge required. Any Person responsible for, or becoming aware of, the discharge to a Public Sewer, accidental or otherwise, of any prohibited substance or of any Slug as defined herein, shall report same immediately by telephone to the Superintendent so that necessary precautions can be taken to minimize the deleterious effects of the discharge.

QUESTION NO. 1 — PROPOSED AMENDMENT TO THE CONSTITUTION

Property Classification for Tax Purposes

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on May 28, 1975, by a vote of 220-53, and on September 7, 1977, by a vote of 243-20?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would permit the legislature to establish as many as four different classes of real property for tax purposes. Property in any one class would be required to be assessed, rated and taxed proportionately but property in different classes could be assessed, rated and taxed differently. The legislature could grant reasonable exemptions. The constitution presently requires all property (other than wild lands, forest lands, and certain agricultural and horticultural lands) to be assessed and rated equally at full value for tax purposes.

QUESTION NO. 2 — PROPOSED AMENDMENT TO THE CONSTITUTION

State Budget Deadline

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint session of the House of Representatives and Senate on May 28, 1975, by vote of 267-3, and on August 10, 1977, by a vote of 250-1?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would allow a governor who had not served in the preceding year as governor to submit a proposed budget to the legislature within eight weeks of the beginning of the legislative session. A governor who had served in the preceding year would still be required to submit a proposed budget within three weeks of the beginning of a legislative session.

QUESTION NO. 3 — PROPOSED AMENDMENT TO THE CONSTITUTION

Distributing Information for Voters

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on June 26, 1976, by a vote of 244-6, and on August 10, 77, by a vote of 253-1?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would require the Secretary of the Commonwealth to send information about questions that will appear on the state election ballot to each person eligible to vote in the Commonwealth, or to every resident in the Commonwealth where one or more eligible voters live. Presently, the Constitution requires the Secretary to send this information to each registered voter in the Commonwealth.

QUESTION NO. 4 — PROPOSED AMENDMENT TO THE CONSTITUTION

Residence Standards for State Census

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on May

26, 1976, by a vote of 266-0, and on August 10, 1977, by a vote of 258-0?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would require that in the taking of the state census, residence be determined in accordance with the standards used by the United States when taking the federal census. Under the federal standards, residence is based upon where a person spends most of his or her time whereas under present state standards residence is based upon legal domicile. The standards would be subject to any exceptions which the legislature might enact.

QUESTION NO. 5 — PROPOSED AMENDMENT TO THE CONSTITUTION

Charter Commission Deadline

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on May 26, 1976, by a vote of 260-1, and on August 10, 1977, by a vote of 255-0?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would allow a local charter commission 18 months after its election to prepare a charter or charter revision for submission to the voters of a city or town. Presently the constitution provides that the charter or charter revision be prepared within 10 months of the election of the charter commission.

QUESTION NO. 6 — PROPOSED AMENDMENT TO THE CONSTITUTION

Student Assignments to Public Schools

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on June 11, 1975, by a vote of 175-73, and on September 7, 1977, by a vote of 173-90?

YES ☐ NO ☐

SUMMARY

QUESTION NO. 7 — PROPOSED AMENDMENT TO THE CONSTITUTION

Taxation of Land Used for Recreation or Left in a Natural State

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and Senate on August 11, 1976, by a vote of 248-5, and on May 24, 1978, by a vote of 257-0?

YES ☐ NO ☐

SUMMARY

The proposed constitutional amendment would give the legislature the power to establish a different method of property taxation for land which is used for recreational purposes and for land preserved in its natural state. It would add these two categories to the existing constitutional provision which allows the legislature to tax wild and forest land differently. The amendment's stated purpose is to develop and conserve natural resources and the environmental benefits of recreational land.

MINUTES OF SPECIAL TOWN MEETING Monday, August 28, 1978

A Special Town Meeting of the Town of Plainville, Mass. held on Monday, August 28, 1978, was called to order at 7:31 P.M. by Moderator David Lomasney in the auditorium of the Wood Elementary School on South Street. The Meeting opened with an invocation by Rev. John M. Bowmar.

Voters checked into the hall by means of the Registrar's Voting Lists by Eugene Gucwa (R) and Jean Simmons (D) totaled 112 at the end of the evening — 64 men and 48 women. Bounds of the hall for voting purposes were set by the Moderator as being the seats set up on the floor of the auditorium. All other persons were to be seated in the bleachers.

Counters appointed to the Moderator's left were Helen Theriault and Kenneth Cox; to the Moderator's right, Marjorie Myers and David Dickinson.

Kathleen Sandland was appointed Ballot Box Officer in case of a ballot vote.

Motion made by Robert Root, seconded by Edward Serwinski that Attorney John Lee and Administrative Assistant Robert Brothers be given permission to speak at this Town Meeting.

UNANIMOUS VOTE

ARTICLE 1 — Motion by Robert Spitler, seconded by Noal McGee that the Finance Committee recommends and so moves that the Town raise and appropriate the sum of \$9,800.00 to fund Police Department salaries for the current fiscal year, 1979, and retroactive to July 1, 1977, to implement the provisions of the three year contract agreement signed on July 31, 1978.

The motion was amended by Edward Serwinski, seconded by Robert Root to read as follows: that the Town vote to raise and appropriate the sum of \$44,606.00 to fund Police Department salaries for the current fiscal year 1979, and retroactive to July 1, 1977, due to a three year contract agreement signed on July 31, 1978.

There was considerable discussion from both sides on the amendment, followed by a motion by Robert Spitler, seconded by Noal McGee to amend the amendment to read "that the Town raise and appropriate the sum of \$32,000.00 to fund Police Department salaries for the current fiscal year, 1979, and retroactive to July 1, 1977, to implement the provisions of the three year contract signed on July 31, 1978. Further, to direct the Board of Selectmen to establish Police Department manning as 9 members and 1 Police Chief, the resulting reduction in force to be accomplished through attrition."

After continued discussion and an explanation of the situation by Attorney Lee, question was called on Article 1 at 9:05. The amendment to the amendment was lost. The Moderator called for a standing vote on the amendment, being unable to judge the voice vote. Result of vote — 55 in favor, 31 opposed.

AMENDMENT PASSED

The Chair declared a ten minute recess at 9:10 P.M., and the meeting reconvened at 9:20 P.M.

ARTICLE 2 — The Finance Committee does not recommend this article.

Motion made by John Stone, seconded by Robert Root that the Town vote to raise and appropriate the sum of \$7,500.00 to fund sandblasting and repainting of the Town Pool, said sum to be spent under the direction of the Park Commissioners.

The motion was amended by William Clarke, seconded by Shirley Larsen, to read "to see if the Town will vote to raise and appropriate the sum of \$5,000.00 to fund sandblasting of the Town Pool, said sum to be spent under the direction of the Park Commissioners." The Moderator questioned the vote and called for a standing count, resulting in 52 in favor, 30 opposed.

AMENDMENT PASSED

ARTICLE 3 — Motion by Arthur Roy, seconded by Robert Spitler that the Finance Committee recommends and so moves that no action be taken on this article.

SO VOTED

ARTICLE 4 — The Finance Committee did not recommend this article.

Motion by Robert Root, seconded by John Stone that the Town vote to raise and appropriate the sum of \$600.00 to purchase a hot water heater for the Town Office Building, said sum to be spent under the direction of the Board of Selectmen. After some discussion, the opinion seemed to be that a rental should be investigated and vote was taken on the article.

MOTION DEFEATED

Having received a motion and second, the Moderator adjourned the meeting at 9:55 P.M.

A tape recording of the above proceedings is on file in the office of the Town Clerk.

Respectfully submitted,
KATHLEEN M. SANDLAND
Town Clerk

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Plainville School Committee:

It is with pleasure that I submit this fifth annual report to you as Superintendent of Schools.

ENROLLMENT

There has been no indication that the continuing decrease in numbers of elementary age children attending the public schools will be changing. Therefore, we still expect our enrollment to drop by approximately 15-20 students for the school year 1979-80.

PERSONNEL AND ORGANIZATION

Two individuals who had been in our system for several years will not be with us this coming school year.

Miss Geraldine Lopez, who had been a teacher at the fourth grade level at the Jackson and Wood Schools for 9 years, decided to leave teaching and embark on another career. Gerry will be missed by the children and her fellow associates who will remember her as a sincere and dedicated professional.

Also leaving the system was Chet Orlando, who had been a teacher of children with learning disabilities and a teacher of Grade 5 Reading. Chet had been a valuable member of the staff and will be missed by everyone.

Planned for the school year 1979-80 will be the following school, grade and specialist organization:

Wood School:

Grade 3 — 4 classes

Grade 4 — 4 classes

Grade 5 — 4 classes

Grade 6 — 4 classes

Specialist Positions: Learning Disabilities Teacher and Resource Teacher

Jackson School:

Kindergarten — 4 classes (½ time each class)

Grade 1 — 4 classes

Grade 2 — 4 classes

Specialist Positions: Learning Disabilities Teacher and Title I Teacher

Itinerant Personnel:

Physical Education Teacher serving both schools

Two ½ time Music Teachers serving both schools

Art Teacher serving both schools

Speech Therapist serving both schools

School Psychologist — ⅓ time serving both schools

School Adjustment Counselor — ½ time serving both schools

School Nurse serving both schools

CURRICULUM

As mentioned in the previous report, the focus of curriculum effort will be toward the development of a competency testing program which has been mandated by the State Department of Education. Miss Jo-Ann Bourgeois, Teaching/Assistant Principal at the Jackson School will coordinate the efforts in this area.

Dr. Cashman will be elaborating on the specific areas of curriculum which were noteworthy during the year.

FINANCIAL

As is obvious to everyone, we are in the center of a rapidly increasing inflation, which has caused our expenditures to skyrocket, and which has necessitated cut-backs in all non-essential areas.

Fiscal responsibility and restraint is being practiced within all town departments, and the School Department is no exception.

With the increase in fuel prices being the largest, special attention has been focused on the conservation of fuel. For the school year 1979-80, there will be a formal program of energy conservation which will involve all individuals utilizing our facilities, including students, both professionals and non-professional staff, town groups and agencies and anyone else using the buildings.

CONCLUSION AND ACKNOWLEDGMENTS

The Plainville elementary schools will continue to provide the children with sound educational programs which will allow them to realize their fullest individual potential.

This can be stated with confidence due to the presence of an outstanding staff of people, including teachers, teacher-aides, specialists, custodians, cafeteria workers, school nurse and secretaries. I wish to extend to the entire school staff my sincere thanks and appreciation for all they have done during this past year.

In addition to the regular school staff, I wish to express my gratitude to all of the parents, and especially the volunteers who have worked in the lunchroom, library, Great Books Program, Outdoor Ed Program, and elsewhere. Without the services of these volunteers and the marvelous cooperation of the parents, our schools would never function as well as they do.

I mustn't forget the cooperation of other town departments who are always willing to help the schools and the children. The Plainville Police, Fire and Highway Departments have continuously supported the schools over the years, and for this I wish to express my thanks.

The Town Administrative Offices have also been very cooperative and helpful, and to all of these

individuals I wish to express my appreciation.

As I have stated in previous reports, we are very fortunate to have such a wonderful group of children in the town. When actions of youngsters are being increasingly criticized, the children from Plainville are fine examples of quality young people.

As Committee members, you have contributed a great deal. Your support and cooperation has helped to keep the schools functioning at a high efficiency level. For your counsel during the year, I wish to thank you.

Respectfully submitted,

EDWARD L. KEANEY
Superintendent of Schools

ANNUAL REPORT OF THE PRINCIPAL OF THE BEATRICE H. WOOD ELEMENTARY SCHOOL

Dear Mr. Keaney,

I respectfully submit my sixth annual report as Principal of the Beatrice H. Wood School and tenth annual report as Principal in the Town of Plainville.

This report will attempt to summarize briefly the significant items of interest that occurred last year, and those that are planned at the Wood School this year.

The B. H. Wood School continues to house grades three through six and a class for children with special needs. Our school enrollment as of September 5, 1979 was three hundred and eighty six — which approximates the enrollment of last year.

The staff at the Beatrice H. Wood School is very concerned with providing our Plainville children with certain basic competencies and life long skills attainment. To this end, we are presently devoting much time and effort in scrutinizing specifically our math, reading and language arts areas. We are presently evaluating these areas and structuring instruction, testing and methodology accordingly.

Our school year opened exceptionally well with a minimum of problems, concerns and interruptions. Although at this writing the school year has just begun, I am in the process of planning many important programs for our children — some of which include: the week-long Web of Life Outdoor Education program at Forestdale on Cape Cod; continuing our Junior Great Books Program in grades, three, four, five and six; revamping our enrichment program for all four grade levels here at the Wood School and many other additions to the curriculum.

Monthly early release days have again been scheduled to allow teachers an opportunity to work on curriculum as well as having outstanding speakers talk on related educational issues and developments. Our in-service committee is currently working on developing a relevant program for this year.

Last spring, in conjunction with our annual Open House, the students presented an excellent Science Exhibit under the direction of Mr. Sweet and Mr. Fasulo.

In May, the Music Department presented a delightful Glee Club production entitled "Melvin the Magnificent", under the direction of Mrs. Bonneau and Mrs. Harrison. The same Glee Club also put on an enjoyable winter concert.

The Wood School benefited from two major improvements last year. A photography lab was built in the room adjacent to the cafeteria. This room allows the children to develop their own slides, prints,

and pictures. Another storage area was converted to accommodate our enrichment program as well as providing some space for children to work on a variety of activities, projects, and learning games.

Each class at the Wood School participated in at least one field trip this past year. Some of the places visited were Symphony Hall for Youth Concerts, Plymouth Harbor for the entire sixth grade to go on a whale watch, Worcester Science Museum, Stonybrook Nature Center, Plainville Fire and Police Stations, the State House in Boston.

In conjunction with the Plainville Fire Department, the entire sixth grade class participated in a C.P.R. and First Aid course that culminated in the presentation of certificates and a plaque at the Graduation ceremonies.

We have continued to provide our Special Needs children with excellent services. Dr. Steven Rosenzweig, School Psychologist, and Mr. John Scollard, School Adjustment Counselor, have been most valuable in this respect. Under the continued Federal Grant 94-142, we have again been able to hire three part-time specific learning abilities personnel to help diagnose and remediate learning disabilities.

Monthly Regional Principals' meetings have been held which have afforded me an opportunity to talk with my colleagues on regional as well as internal school problems and situations. These meetings have been extremely beneficial and fruitful.

It was a year of excitement, change and progress, and we anticipate that we will continue forward this school year. The teachers continue to exhibit a sincere dedication with regard to their performance in their professional roles. They have worked diligently, and continually seek self-improvement by taking many specialized courses, as well as giving freely of their time outside the formal school hours.

Further, my thanks to Mrs. Pray, our school nurse; Mrs. Green, our secretary; Mr. Senior and his custodial staff; Mrs. Perkins and the luncheon personnel. I would like to express my gratitude to our extremely competent aides: Mrs. Botka, Mrs. Henrich and Mrs. Lomasney.

In conclusion a very special thanks to the wonderful group of volunteer parents who have assisted in the library, cafeteria, classrooms and the Great Books Program, and make such a significant contribution to our school.

Finally, I would like to extend my thanks and appreciation to you, Mr. Keaney, the Plainville Education Association, and the Plainville School Committee, and the P.T.O. as well as all the citizens of Plainville. It is a great satisfaction to work with all of the people I have mentioned, and I feel we will have a truly successful and interesting school year.

Sincerely,

Richard K. Cashman, D.Ed.
Principal

Annual Report
of the
SELECTMEN
AND
BOARD OF HEALTH
of the
TOWN OF PLAINVILLE, MASSACHUSETTS

FOR THE YEAR ENDING JUNE 30, 1979

REPORT OF THE BOARD OF SELECTMEN — BOARD OF HEALTH

To the Citizens of Plainville:

As has been the custom for the past several years, the following is a combined report for the two Boards for the fiscal year ending June 30, 1979.

At the Town Election in April, Edward S. Serwinski was re-elected to a second three-year term on the Boards of Selectmen-Health.

Our regular Monday night meetings have been open to the public as usual and properly posted with the Town Clerk. It has been noted that a certain degree of increased interest in our Board's activities has developed judging by the attendance at many of our meetings.

As in the past, proper consideration has been given to both the renewal and granting of new licenses and permits for many and varied activities. Our appointed agents have served quite satisfactorily in reporting and keeping us advised on matters coming within the scope of their individual responsibilities.

During this fiscal year, the sewer project has been underway in earnest, and at the time of this report, most of the work has been completed with the exception of the final paving of streets. It is now contemplated that a tie-in with the North Attleboro sewage treatment plant could become a reality in late 1980. Although the townspeople have been asked to put up with rough roads, detours, delays and inconveniences, we feel quite certain that the end result will more than compensate for any and all hardships encountered during this long awaited solution to our downtown sewerage problems.

At the April Town Election, Patricia Barney, Walter Burlingame and Walter Coleman were elected as Sewer Commissioners; and it will be their joint responsibility to administer the rules and regulations set forth in the newly adopted Sewer Use By-Law approved at the Special Town Meeting held on May 21, 1979.

Among the many Disposal Works Construction Permits signed during the year was one for the Attleborough Savings Bank in July 1978 to construct a solar heated bank on Messenger Street near the Taunton Street intersection, the first of its kind to locate in the area. The bank was completed and opened for business in late spring 1979.

The matter of rules and regulations for Mobile Home Parks (three operating in town at present) was discussed at some length on numerous occasions, and as of this writing Town Counsel Lee is putting the finishing touches on a final draft of same.

Hours of closing for certain liquor establishments became a subject for consideration over a period of many months which prompted a hearing on the matter in January. In order to get an indication from the townspeople on the issue, a referendum question was placed on the ballot asking whether hours for closing of liquor establishments should be extended beyond 1:00 a.m. the result of the vote was nearly three to one that they should not. Subsequent to that, the Board voted to roll back the closing time for five liquor operations from 2:00 a.m. to 1:00 a.m. This immediately invoked an injunction against the Board by the Red Baron on South Street for exceeding its authority, and the plaintiff sought suitable remuneration for losses incurred due to said action. The suit is presently awaiting final court action.

After a well attended hearing held in December concerning the possibility of accepting hazardous waste materials at a site to be developed near our present land fill area, the Board voted unanimously to drop any further consideration of accepting such hazardous waste materials in Plainville. As mentioned in last year's report, we continue to accept small quantities of special waste (oil drenched sand or the like) at our land fill site for which we receive a fee of \$10.00 per ton.

For some time over a period of many months, we had been experiencing police, fire and Board of Health problems at the New Twin Lanterns on Route 1; and after discussions with management this spring, it was decided that the facility should be closed and remain so until necessary repairs have been

made and corrective measures taken or the property is sold.

All three Selectmen attended the Massachusetts Selectmen's Association Annual Meeting held at Dunfey's in Hyannis on October 20 and 21, viewed several outstanding exhibits and participated in the various meetings and seminars pertaining thereto.

White goods pickups were held twice during the past year under the supervision of the Highway Department for the convenience of those who had items for disposal which were not acceptable to our regular weekly collection.

Multi-Human Services Center had an active but rather brief operation in their South Street facility, and handled several local cases to a satisfactory conclusion, but they were eventually required to eliminate their Plainville operation due to lack of funds.

In October of last year, representatives from Clean Communities, Combustion Engineering, Inc., Gerry Lorusso, and Town Counsel John Lee met with the Board to discuss plans for joint development of a resource recovery recycling plant at our land fill site. Steam generated electric power would have been produced and then purchased for distribution to its member companies by MMWEC (Mass. Municipal Wholesale Electric Co.). Since that meeting, Combustion Engineering has been eliminated from the picture, and Combustion Equipment Associates is presently negotiating with Joseph Lorusso for purchase of the present land fill area, where they propose to build a resource recovery plant for the manufacture of a salable combustible fuel to be extracted from the raw waste materials received at the site.

Several meetings were held with Department Heads throughout the year at which time budgetary problems and matters of timely interest were mutually discussed with the Board. These periodic meetings have proven to be very productive, fruitful, and informative for all concerned.

During the year the By-Law Review Committee completed a project of upgrading zoning maps and booklets and made them available to the public on a fee basis.

A 75th Anniversary Committee was appointed to formulate plans for an appropriate celebration of the 75th year of Plainville's incorporation as a separate town (April 1905).

Jurors were selected for jury duty throughout the year from a prepared list kept in the Town Clerk's office. Jurors are chosen in Dedham.

Proponents of Pizza Hut who had received a building permit for construction of a restaurant on land owned by George Morse adjacent to the Shell Station on Route 152 have been subjected to numerous delays and setbacks and are still awaiting the outcome of a Superior Court decision pertaining to suits filed by a group seeking review of the Building Inspector's decision granting the permit.

Percolation tests were allowed during the fiscal year from January 17 to April 30, 1979 by vote of the Board of Health.

Several flooding and drainage problems throughout the town became a real source of concern to the Board of Health, and whereas temporary measures were taken to correct the problem, it is hoped and anticipated that federal monies will be forthcoming under a community block grant from HUD to alleviate and rectify most of the bothersome areas.

The Industrial Development Commission has been rejuvenated and is presently looking into the most beneficial use or disposition of the Northeast Concrete Products property on Cross Street. North Attleboro has offered their assistance and expertise, and they would like to work with our Commission to implement the sale of any other properties or parcels which merit attention.

This was the year of the 4% cap being enacted by the State Legislature for all town budgets covering a period of two years. All town departments adhered to this yardstick with a few minor exceptions. Any budget increase beyond the cap required a two-thirds majority vote by registered voters for accept-

ance at a regular town meeting. It is anticipated that fiscal year 1981-1982 may require greater sacrifices and even more drastic curtailments of many expenditures than next year.

Frequent hearings were held throughout the year on requests from Massachusetts Electric and New England Telephone for new, relocated, or joint pole locations on various streets in town, and all were concluded without problems.

In May of this year, Mr. & Mrs. Hugh Nowick purchased the operating restaurant business known as T.J.'s Restaurant from Mr. & Mrs. Anthony Melito. We have been assured that the same fine food and service will be provided as has been the custom.

In conclusion, it is with sincere and hearty appreciation that we extend our humble thanks to all those who have aided in any way to make a sometimes difficult and trying job that much easier. We further wish to express our gratitude to all members of departments, committees, the Town Office staff, and the citizens of Plainville for their continuing loyal support and fine cooperation throughout the year.

Respectfully submitted,

ROBERT W. ROOT, Chairman
JOHN F. STONE, Vice Chairman
EDWARD S. SERWINSKI, Clerk

REPORT OF THE POLICE DEPARTMENT

To the Town of Plainville:

I wish to take this opportunity to publicly express my thanks to the personnel of this department for their efforts and accomplishments, for without their expenditures this department could not progress.

The department is prepared to be responsive to the needs of the community, but must have the support of its citizens. Any public agency is a direct reflection of the attitude of the community and this mirror image acts as an impetus for the department or agency to continue to improve itself. When a community develops an apathetic attitude towards a public service, the agency itself becomes apathetic and stagnant, and above all ineffective.

This stagnation nourishes inefficiency, low productivity levels and prohibits attainment and establishment of goals and objectives — all of which cost you tax dollars for an ineffective service.

The “mirror image” then focuses back on you with wasted tax monies and an impotent service, which places the community in a precarious position which will eventually consume vast amounts of money and personnel to correct.

Your input and support is vital if this agency is to provide you with the service that you expect and demand.

We will not always meet your expectations or agree on an issue, but the spirit is here to provide you with the best service at a reasonable cost.

REPORT OF THE COUNCIL ON AGING

To the Honorable Board of Selectmen:

Gentlemen:

We are in our fifth (5th) year and success and growth continue. Below is the summarization of monies expended:

Appropriated July 1, 1978

Salaries	\$15,786.00
Expenses	5,048.00
Capital Equipment	<u>500.00</u>
Total	\$21,334.00

Expended as of June 30, 1979

Salaries	\$15,738.86
Expenses	5,040.63
Capital Equipment	<u>415.00</u>
Total	\$21,194.49

Returned to the Town \$ 139.51

What We Have Accomplished

1. Our arts and crafts classes still continue successfully. Our teachers are all still on a volunteer basis and incur no expense to the town. To these teachers go our heartfelt thanks. Different arts and crafts are conducted on each of the 5 days that the Drop-in Center is open.

2. Day bus trips as well as overnight trips have been enjoyed and will continue. The number of Senior Citizens participating still continues to grow.

3. Mini Bus Mutual Aid still exists with North Attleboro and has grown to now include Wrentham. Each of the towns has agreed to assist us in an emergency.

4. The mini bus continues to serve the elderly of Plainville. At this point in time, it is in constant use 7 hours a day, 5 days a week. It provides transportation to appointments and shopping trips, as well as occasional evening use for such things as Town Meetings and other local events. The bus is driven in the evening by volunteer drivers.

The bus is still being housed and taken care of by our Fire Department. To the Fire Chief, Mr. Skinner and our firefighters, our sincere thanks.

5. We still continue our monthly Blood Pressure Clinic at the Drop-in Center, and we have expanded to include weekly trips by the Visiting Nurse Association for more extensive needs. The expansion of service is at no additional cost to the town.

6. Plainville continues to have two (2) members of the C.O.A. serving as members of the Board of Directors of King Philip Elder Services, Inc. K.P.E.S. is the Home Care Corporation serving twelve towns in our area. Our present members of that Board are Mary E. Serwinski and Janis E. Bona.

7. Through the King Philip Elder Services, Inc., we were able to procure a grant for the Senior Citizens Nutrition program which allows us to serve a lunch to Senior Citizens at the Drop-in Center 5 days a week. This meal is specifically designed to meet the nutritional needs of the elderly. It is prepared by Morins Caterers of Attleboro. We are limited, at this time, to 50 lunches per day; and since receiving the grant in March of this year, we have served the maximum amount practically everyday. We also have tremendously increased our "Meals on Wheels" program which serves the nutritional needs of "shut-ins". We are now serving an average of 18 Meals on Wheels per day.

8. There is a new program called "Project Reassurance" operated out of the Police Station and run by Ms. Judy Quintin and a staff of volunteers. This program is designed to allow senior citizens (or any townspeople) who live alone to call on a special telephone line each morning. If the person doesn't call in, he or she is called by one of the volunteers; and if they cannot be reached, a police cruiser is sent to investigate. This program is also a success. Our sincere thanks to Ms. Judy Quintin, the volunteers, and Chief Sandland.

What We Hope to Accomplish

Our priority for the coming year is to do everything possible to procure a grant for the construction of a town-owned Drop-in Center and Public Library. We have begun and will continue to work with the Library Trustees, the Board of Selectmen, Administrative Assistant Mr. Robert Brothers, and our volunteer architect Mr. Doug Annino to make this dream a reality.

It requires a lot of time and planning, but we feel we will be successful because of the outstanding co-operation of the above-mentioned individuals, Boards, and all the townspeople. We hope we will have a specific Building Plan timetable for next year's Annual Report.

We have reached approximately 75% of Plainville's Senior Citizens in one way or another this past year, and we are very proud of our accomplishments.

We would like to thank some of the people who have made this possible: The Board of Selectmen, the Fire Department, the Police Department, Mr. Everett Skinner and the Highway Department for our "snow-free" entrance to the Drop-in Center. Mr. Robert Brothers for all his invaluable help in writing grants, (2 of which we have received) and tax assistance to senior citizens. Mr. Joe Gormley and Mr. Frank Green for being our volunteer Bus Drivers. Our volunteer staff that serves lunches daily at the Drop-in Center, Isabelle Cadrett, Betty Knight, Jessie Peacock, Rosalie Tremblay and numerous others. Our volunteer architect, Mr. Doug Annino. The Plainville School Committee, Mr. Keaney and cafeteria staff for the excellent lunch program they provided in the past four years and for the continued use of their facilities for dishwashing and printing our newsletter.

A special Thank You to the townspeople of Plainville for caring about our elderly and helping us to meet the needs of those who met our needs for years.

REPORT OF THE LIBRARY TRUSTEES

To the Honorable Board of Selectmen:

Gentlemen:

The public library continues to operate well under the careful direction of Mrs. Cobb and her able assistant, Mrs. Hastings.

Our total circulation for the past year was 10,054, which includes records and magazines. Many people are, as always, using the library for reference and study.

The total number of books is now 10,200, crowded onto each shelf.

The copying machine is a great help to the library and is used a great deal.

Some hope is offered by the Library Study Committee and the Council on Aging that a building might be erected with Federal funds to help both these organizations solve their housing problems.

The outside of the library is going to need to be scraped and painted. It is in very bad condition and should be done next year.

Thirty-three children participated in the summer reading program. Mrs. Margaret White kindly volunteered to conduct a story hour on Tuesdays at the library during the summer months.

The Plainville Park Department continues to take care of the grounds, and we appreciate the excellent job they do.

A total of \$207.00 in fines was turned back to the Town Treasurer.

Respectfully submitted,

The 75th Anniversary Committee was appointed in September 1978 for the purpose of formulating a plan for, and determining the estimated cost of a program for Plainville's 75th Anniversary Celebration, to be completed so that an Article might be inserted in Annual Town Meeting Warrant in April 1979, hereby submits this report:

REPORT OF THE BOARD OF REGISTRARS

The Board of Registrars met several times throughout the year for registration sessions prior to the Annual Town Meeting and Special Town Meetings. The Board was also available at elections and Town Meetings to assist officials in the event of questions about the voting list and registered voters.

We are in our third year of census by mail, and we feel that the responses have been excellent and that this method has been the most effective and accurate to date.

We are anticipating and preparing for a busy year with three state elections and one town election in 1980. There will be three evening sessions for each election, and the Town Clerk will be available during normal business hours to take registrations. Also, the registrars may register voters in their homes, schools, nursing homes and other public places. For more information concerning out of office registrations, call the Town Clerk's office for details. Our goals are high to register as many citizens of this Town that wish to vote.

Listed below are expenditures incurred by the Registrars for fiscal year ending 1979.

REPORT OF THE NORFOLK COUNTY MOSQUITO CONTROL PROJECT

The Operational Project Program integrates all proven technologies into a system of mosquito control that is rational, safe, effective and economically feasible.

All mosquito eggs need water to hatch and to sustain larval growth.

Source Reduction Work: Our primary efforts are concentrated on the draining of shallow, standing, stagnant water and the maintenance of existing flow systems which contribute to mosquito breeding sources.

Drainage ditches cleaned	4,720 feet
Brush obstructing drainage cut	75 feet
Culverts cleaned and opened	25
Drainage constructed or improved by machine	1,075 feet

Larviciding: Treatment of mosquito larvae during aquatic development is the next most effective control effort.

Aerial applied larvicide	190 acres
Larvicide by backpack and mistblowers	55 acres

Adulticiding: The suppression of flying adult mosquitoes becomes necessary when they are numerous, annoying or threatening to residents.

Adulticide mistblowing from trucks	4,530 acres
Adulticide U.L.V. from trucks	192 acres
Catch basin application. Adulticide & larvicide	359

Surveys, inspections and monitoring in support of our programs include locating and mapping breeding areas, larval and adult collections and fieldwork evaluations leading to better drainage.

The Project received 79 calls from residents for information and assistance.

SOUTHEASTERN REGIONAL PLANNING AND ECONOMIC DEVELOPMENT DISTRICT (SRPEDD)

During 1979, the Town of Plainville continued its membership in the Southeastern Regional Planning and Economic Development District, a planning agency set up by state legislation to serve the communities in southeastern Massachusetts.

The District is governed by a Commission consisting of a chief elected official or a designee, and a planning board member from each member municipality, and six minority and low-income representatives.

Plainville's Commission member is Edward Serwinski, representing the Board of Selectmen. Plainville has also been represented on several advisory committees to the District Commission.

District staff under the guidance of the Commission and various committees prepares plans for southeastern Massachusetts on such subjects as land use, housing, transit, transportation, economic development, water quality and solid waste as required and funded by the state and federal governments. Preparation of certain regional reports enables communities to be eligible for state and federal funding.

Most of the District's time, however, is devoted to assisting cities and towns. Through the municipal assistance program each municipality receives a certain amount of time at no cost beyond the per capita assessment. Municipal assistance projects can include the following: Master Plans; Open Space and Recreation Plans; Subdivision Regulations; Landfill Inspections; Site Analyses for Proposed Development; Solid Waste Plans; Drainage Studies; Urban Renewal Plans; Home Rule Charters; Zoning Ordinances; Transportation Corridor Studies; Traffic Circulation Plans; and Industrial Survey Plans.

The District also serves as a conduit for information and assistance on federal programs such as Community Development Block Grants or Public Works Projects and enables local officials to participate in state and federal policy making.

During 1979, the District assisted Plainville specifically by assisting in the preparation of an application for Community Development Block Grants.

The District, in essence, represents the collective will of the cities and towns in southeastern Massachusetts. As the responsibilities and problems of the municipalities become increasingly complex, the agency can provide the necessary technical assistance, insure cooperation among municipalities, and provide for a comprehensive approach.

REPORT OF THE HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

This has been an extremely busy period for the Highway Department and the Superintendent, due for the most part to the sewer construction. This is the reason for the somewhat brief report at this time. If anyone has any questions, he should contact the Highway Superintendent.

All streets in Sewer Project Phase I, with the exception of Route 1A, have been re-surfaced with bituminous concrete Type I-1.

As in previous years, mowing and general clean up of the Old Cemetery on West Bacon Street was taken care of by the Department.

In conjunction with the Highway Department Program, drainage, catch basins, brush cutting along the roadside, gravel roads scraped and graveled, bituminous patching and general maintenance was once again accomplished.

It has been a pleasure to work with and for the other departments during the past year, and, as I submit this report, I would like to thank your Board, the Highway Department employees, and all Department Heads for their cooperation during this period.

Respectfully submitted,

Everett W. Skinner
Superintendent of Streets

To the Honorable Board of Selectmen:

Gentlemen:

There were a total of 10 dogs restricted for a period of 10 days (as required by the State of Massachusetts) after a report was received that the dog had bitten a person. This is done to be sure that the dog does not have rabies.

During the month of January, an annual census showed the following animals in the Town of Plainville:

Dairy cattle	5
Beef cattle	7
Horses and ponies	70

Swine	46
Sheep	8

REPORT ON THE CONTROL OF INSECTS AND DUTCH ELM DISEASE

To the Honorable Board of Selectmen:

The appropriation for the year for this account was used to take down dead trees caused by the Dutch Elm Disease, and spraying for the tent caterpillar. Where wires were involved, Massachusetts Electric Company paid to have these trees removed below the wires, making it possible for the Town to take down more trees than our appropriation would have allowed.

Balance, June 30, 1979	\$ 304.85
